Face view

Slip-on flange with hub, ASME B16.5 Class 400 RJ

NPS 1 (DN 25)

Dimensions per ASME B16.5-2025, inches and millimetres as the standard's own tables give them. Note 5 of the Class 400 table: use the Class 600 dimensions in this size.
Ring joint facing to ASME B16.5 Table 5, ring and groove number R16, which is the Class 600 ring (Table 5 asks for it in this size of Class 400). The raised portion stands E above the flange, the same as the depth of the groove, so the bottom of the groove is level with the flange face. Ring joint gasket dimensions are to ASME B16.20 (clause 6.11.1).
tf and Y are the ASME B16.5 dimension, measured without the raised portion; the tf + E and Y + E rows are the same flange measured over the facing.
ASME B16.5 gives Class 400 the same dimensions as Class 600 in NPS 1; only the marking differs.
